

**National Ice Skating Association of UK Ltd**  
**TECHNICAL REQUIREMENTS FOR NATIONAL SINGLES & PAIRS OPEN COMPETITIONS**  
**FROM 1<sup>ST</sup> July 2017 to 30<sup>th</sup> JUNE 2018**

**(To read in conjunction with any relevant ISU Communications and subject to any revisions emanating from Frankfurt July 2017)**

These competition program requirements comply with ISU Basic Novice to Senior and, for a short time, may be out of line with the NISA Free Skating test structure. All elements performed are as per ISU current regulations. This allows skaters to perform IJS test and competition elements as per the established criteria (ISU regulations)

**This Generic Criteria must be read in conjunction with ISU Special Regulations and Technical Rules 2016, ISU Communications 2089, 2014, 2024 and any subsequent ISU communications. Vocal Music is allowed at all levels. ISU Age restrictions do not apply.**

**However, for the purpose of the Step Sequence in Beginner Singles, the requirement for full ice surface at base level will be achieved when the skater covers a minimum of 75% of the full ice surface to make this achievable for skaters at this level. The criteria for level 1 and above step sequences remain as per ISU.** Ladies and Men may not compete together in the same singles competitions. These singles competitions must be split into separate Ladies and Men's events. This does not apply to any exhibition events where this is at the discretion of the club. Tests passed after the closing date DO NOT allow entry to be transferred to another level unless agreed by the organizing committee.

The Generic Criteria is the same for all Opens, with the following conditions:

- **There are no age restrictions at any level of the Generic Criteria for competitors conforming to the Minimum and Maximum test standard requirements stated for the relevant level.**
- All competitions except exhibition events must be judged using IJS.
- IJS events from Beginner to Level 3 will be judged in accordance with the ISU Basic Novice regulations, i.e. No element can achieve higher than Level 2 and only 2 components will be scored in accordance with ISU Communication 2024
- **Levels 8 to 10 may be skated at all events, using IJS if desired by the Club but due to restrictions on levels caused by the size of the ice surface, test passes will only be available when skated on ice surfaces with a minimum size of 26 x 56 metres.** Permit requirements will be different for the two types of event.
- Where Clubs/Rinks choose and are permitted to hold an event using the IJS, the Short Programme and Free Programme **MUST be run as 2 separate events.**
- Skaters are free to enter either or both of the 2 events at any level for which they meet the requirements.
- Many skaters will be eligible at more than one level and will choose which event they enter in association with their Coach, based on their personal plans for the season. If entries are submitted for 2 events, skaters must state their preference if clubs can only accommodate skaters in one event due to time restrictions.
- As per ISU Com. 2024 no highlight will be awarded at level 8 and below.

It may be possible to achieve test passes at all NISA Permitted IJS Opens working within NISA rules / criteria.

- 1) **SPIN WITH NO CHANGE OF POSITION:** A “spin with no change of position”, in which another basic position is executed with more than two (2) revolutions, does not fulfil the requirements of a spin with “no change of position” and will be identified as a “spin combination”. However, the concluding upright position at the end of the spin is not considered to be another position independent of the number of revolutions, as long as the skater is executing only the final wind up without any enhancements. NB. This means in a spin with only one change of position, if the second position is an Upright position it should be obvious, eg. have an enhancement, to make it clear is not simply the wind up.
- 2) **CHOREOGRAPHIC SEQUENCE:** A Choreographic Sequence consists of any kind of movements like steps, turns, spirals, arabesques, spread eagles, Ina Bauers, hydroblading, any jumps with maximum of 2 revolutions, spins etc. Listed elements included in the Choreographic Sequence will not be called and will not occupy a box. The pattern is not restricted, but the sequence must be clearly visible. It can be performed before or after the Step Sequence. This element has a fixed base value and will be evaluated by the judges in GOE only. As per ISI communication 2089 and any subsequent updates.
